## Career Objective

I'm a hardworking and quick learner. I believe in hard work and like to work on time. Love to learn new technology and implement them on web development field and can't give up without finishing my task.

## Skills

Frontend	: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React.
Backend	: Node.js, Express.js, MongoDB.
Tools	: Firebase, Heroku, React Query, GitHub, VS Code, Netlify, Figma.
Interpersonal	: Leadership, Communication, Flexibility, Teamwork.

## Projects

### Computer Parts Manufacturer

[Live Link](#) | [Client Code](#) | [Server Code](#)

It's a parts manufacturer seller website. Where a lot of parts are available for wholesale sales.

- Used daisyUI as a component's library of Tailwind CSS.
- Used firebase hook for Authentication. Also used React-Router, React Query, Nested Routes, Axios for make website more user friendly.
- Stripe Payment Method, jwt to verify security and two different roles (admin, client) are implemented. Data are stored on MongoDB using crud operations with help of Express JS.

### Clothing Warehouse

[Live Link](#) | [Client Code](#) | [Server Code](#)

It's a warehouse-based website. Where a lot of clothes are stored.

- Frontend design with Tailwind CSS and Flowbite as component's library.
- Used React-Router to turn the application into Single Page Application.
- MongoDB for stored data and Express.js as Node.js framework. Backend data are hosting on Heroku.
- Used React firebase hook for Authentication and JSON Web Token are implement.

### Wedding Photographer Abrar

[Live Link](#) | [Code](#)

This is a wedding photographer's website and details of what services he provides.

- Used React-Router to turn the application into Single Page Application.
- Used Bootstrap as a CSS framework and Rechart for a graph view of services.
- Used React Firebase hook for implement Email, Google, GitHub Login.
- MongoDB for stored data and Express.js as a backend framework. Backend data are hosting on Heroku.

## Education

**Shanto-Mariam University of Creative Technology,**  
Uttara - Bsc. in Computer Science and  
Engineering (8<sup>th</sup> Semester)

## Courses

**Web Development Course**  
Programming Hero  
From January 2022 to May 2022
